

Seed Libraries Roundtable

Seed libraries are popping up all around Long Island. Libraries are realizing seed libraries are a great way to engage gardeners in our community. We are also traditionally very good at saving, collecting and sharing items! What's the best way to operate a seed library? Let's get together to discuss best practices and share our ideas!

Discussion questions will include:

What are the first steps in starting a seed library?

How do you obtain seeds?

Which seeds are easy to save?

How can you promote your seed library?

What are some programs you can offer your patrons?

What do you do with expired seeds?
