

Technical Services Round Robin

@ Suffolk Cooperative
Library System
Bellport

Tuesday, April 16, 2013
at 2:00pm

Join in a stimulating series of small-group discussions on four current Technical Services topics: Classification (traditional vs. nontraditional), MARC, Resource Description and Access (RDA), and Workflow, facilitated by Renée Capitanio (Sachem Public Library), Tom Cohn (Huntington Public Library), Tim Sicurella (SCLS), and Nicole Turzillo (Westhampton Free Library). Participants will have a chance to move around the room and gather new ideas at each table. Leave feeling invigorated with fresh ideas you can bring back to your library.

For additional information visit the CATS website at <http://scla.net/cats/>
