RESOURCE DESCRIPTION & ACCESS

Changes for Users and Catalogers

A Presentation by Natalia Tomlin

RDA represents a shift in cataloging practice aimed to support the digital environment and to improve the user experience by heightening the discoverability of materials and collections. The presentation will center on the RDA principles, vocabulary, new content of bibliographic record and resulting changes in OPAC display.

Wednesday, November 13th

SCLS Auditorium

627 N. Sunrise Highway, Bellport, NY

10 a.m. to 12 p.m.

Coffee and Refreshments will be served at 9:30 a.m.

About the Presenter: Natalia Tomlin, Technical Services Librarian at the B. Davis Schwartz Memorial Library, LIU Post (formerly Long Island University C.W. Post Campus). Natalia has more than ten years of academic librarianship experience in the field of cataloging and bibliographic control. Her diverse responsibilities have included original cataloging of materials in a variety of languages and formats, system administration, database maintenance, and authority control including NACO and SAR records creation. She is currently President-elect of New York Technical Services Librarians (NYTSL) and as a board member helped organize programs on the future of bibliographic description and MARC, intellectual property and information organization.
