TECH PROGRAMMING ON A BUDGET

WITH MICHAEL BARTOLOMEO

Running technology programs does not have to break the bank (or your programming budget!). This webinar is designed for libraries and library personnel working with limited budgets or those who want to look before they leap into a new technology.

Ideas for in-person and virtual programming will be discussed as well as helpful resources for getting the best price and getting inspired for your next potential program. Zoom link will be provided prior to the session.

TUESDAY, FEBRUARY 11
2:00PM
